ADDRESS:

University of Illinois at Urbana-
Champaign
400 Engineering Hall MC-268
1308 West Green Street
Urbana, IL 61801

WEBSITE:

<http://engineering.illinois.edu/online/>

REQUIRED COURSES:

See <http://engineering.illinois.edu/online/>
for the course requirements for both
certificate programs.

These certificates are intended to provide a multiplier effect on the value of an engineering degree by grounding engineers in business concepts that will be encountered throughout their career. Up to 12 hours of credit may be transferred into a degree program with departmental approval.

TARGET AUDIENCE:

The certificate programs are geared toward engineers, but are open to anyone who holds a bachelor's degree.

ADMISSION REQUIREMENTS:

Students must:

- Hold a bachelor's degree
- Earn a B- or higher in all coursework
- Submit the following materials upon completion of coursework:
 - Application form
 - Transcript of the courses you've completed toward the certificate. For information on ordering transcripts, see <http://engineering.illinois.edu/online/>.
- Processing fee: \$100 check made payable to the University of Illinois

COST:

Tuition and fees are posted at <http://engineering.illinois.edu/online/> on the "Tuition and Fees" page when available.

REGISTRATION PROCEDURE:

See <http://engineering.illinois.edu/online/> for details.

ACADEMIC CALENDAR:

Regular UIUC semesters beginning August, January, and May.

DELIVERY MODE:

Online

LOCATION(S) OF COURSES:

Online

TEXTBOOK PURCHASE:

UIUC Illini Union Bookstore at <http://www.uofibookstore.uiuc.edu> (some course materials available through the Office of Continuing Engineering Education).

TRANSFER HOURS POLICY:

Only UIUC courses will count toward the certificates.

TOTAL HOURS NEEDED:

6 semester hours for the BME; 7 semester hours for the STM

FINANCIAL AID INFO:

Not available for certificate programs.

SPECIAL CHARACTERISTICS:

The Business Management for Engineers (BME) certificate consists of a sequence of courses that concentrate on the principles and practice in business concepts and management skills designed help to build the aptitude of engineers in this area; an expertise that is inherently necessary for successful managers and leaders.

The Strategic Technology Management (STM) certificate program is designed for students with an engineering background who aspire to rise in management, make higher level strategic technology/business decisions, and develop leadership skills.
