Explore a Career in Libraries

The University Center of Lake County is partnering with the North Suburban Library System, Dominican University, and University of Illinois at Urbana-Champaign, to provide an information session about education for careers in library science. The free program will be held on Wednesday, February 11, from 4-6:30 pm at the North Suburban Library System auditorium, 200 W. Dundee Road in Wheeling. To register, contact Tonia Baxter at tbaxter@ucenter.org or (847) 665-4014.

Both Dominican and UIUC offer master's programs in library and information science (MLIS) through the University Center of Lake County. Attendees will hear faculty, alumni, and admissions representatives from both programs discuss how to prepare for a graduate program in library science, how to balance work and life responsibilities while attending a graduate degree program, and the variety of careers available in libraries.

They will also share specifics about their two programs, so attendees can determine whether Dominican's face-to-face program or UIUC's online program is a good match for their own schedule and learning preferences.

For more information about this event or either degree program, visit www.ucenter.org.
