University Center Invites You to Celebrate Lincoln's Birthday

The public is invited to help celebrate Abraham Lincoln's Bicentennial on February 12 at the University Center of Lake County. The University Center will be a Lake County site for the Abraham Lincoln Presidential Library and Museum's effort to set a Guinness World Record for simultaneous reading of the Gettysburg Address at 9:30 am CST. Copies of the address will be available for willing readers. Participants should arrive at University Center by 9:15 am to register. Staff from the office of State Senator Michael Bond (D-31) will serve as the official witnesses. The group will be able to view the activities in Springfield via live webcast.
