

FOR IMMEDIATE RELEASE

NEIU Student Appointed to University Center Governing Board

Grayslake, IL (April 19, 2013) Northeastern Illinois University student Arbnora (“Nora”) Mena has been appointed to the University Center of Lake County’s Governing Board to represent the Center’s Student Advisory Council. Mena, a Lake Villa resident, is an undergraduate student majoring in Psychology. She anticipates finishing her degree in Spring of 2014.

Ms. Mena began her studies at the College of Lake County and has been attending NEIU’s program in Grayslake for three semesters. She is also employed by NEIU as a peer tutor, a position that has enabled her to meet a large number of fellow students. She cited the hours she spends at the University Center and the wide range of peers she has encountered as good qualifications for representing the NEIU student body on the Student Advisory Council and also for representing the entire UC student community on the Governing Board.

She praised the Center’s structure as a consortium of 20 public and private universities. “I have grown up and lived in this community all of my life; I started off at CLC and I came here shortly after and I just loved the campus and have been promoting it ever since! I think this is a really great idea in that students from all the campuses can provide feedback and ideas that can help assist or improve the learning process.”

She will begin her service at the April meeting of the Governing Board’s Executive Committee and will serve throughout 2013.
