

FOR IMMEDIATE RELEASE

Build a brighter future via University Center Open House

Grayslake, IL (March 20, 2019) The University Center of Lake County will hold an open house on Thursday, April 11 from 6 - 8 pm to demonstrate how higher education can help adults build a brighter future through higher education. It will showcase the more than 130 academic options available in Lake County from 18 colleges and universities for completing a bachelor's degree, earning a graduate degree or pursuing professional certificates through evening, weekend, or online study. Prospective students can meet program representatives to ask questions about curriculum and admission, discuss career paths, and find the right programs.

Tim Panfil, Senior Director of Graduate Admission & Enrollment Management at Elmhurst College, will twice present a session, "Wherever You Go, There You Are—Three Keys for Career Success," during the event. These sessions will be at 6:30 and at 7 pm and attendees at each session will be entered into a drawing for a university-branded prize.

University Center of Lake County is at 1200 University Center Drive in Grayslake. Call 847/665-4000 for more information or visit www.ucenter.org/register to register for the open house.
